Pick Packer • Employee • Shiperoo

January 2020 to current
Administration • Manager • Leading Development Group

January 2018 to January 2020
Inventory Control Team Member • Employee • Woolworths

Experienced across administration, inventory control and warehouse operations, with a proven record of reliability and teamwork. Currently employed as a Pick Packer at Shiperoo, ensuring accurate order fulfilment and maintaining high quality standards. As an Administration Manager at Leading Development Group, I oversee daily operations, coordinate projects and streamline processes to improve efficiency. Previously, as part of the Inventory Control Team at Woolworths, I managed stock levels, supported store operations and delivered excellent customer service. Skilled in organisation, communication and problem-solving, with a strong commitment to accuracy and continuous improvement.

Bilingual Phenomenal computer skills and fast typing speed Attention to detail Work well in a Team Experience with Unity, React, Unreal Engine and Maya	Delivered a major presentation on a game development project to peers and lecturers, receiving excellent feedback for clarity, confidence and engagement. I communicate complex technical concepts in a way that's easy for both technical and non-technical audiences to understand. Experienced in working collaboratively within team environments, sharing ideas openly and providing constructive feedback. Comfortable presenting project updates, demonstrating prototypes, and contributing effectively to group discussions and online meetings.
	Demonstrated strong leadership through managing team-based game development projects using Unreal Engine and Unity. Led collaborative groups in designing, developing and testing games, ensuring each team member's strengths were utilised effectively. Created detailed project roadmaps and implemented time management strategies to keep tasks on schedule and maintain high-quality outcomes. Known for clear communication, problem-solving under pressure and motivating peers to achieve shared goals.
